ABOUT ME

Hello, I am Musa Güngör. Design, development, and optimization of embedded systems. Utilizing my knowledge in this field according to industry standards and the latest technologies, I aim to create innovative solutions.

EXPERIENCE

Embedded System

2M KURUMSAL INFORMATION TECHNOLOGIES

- Developed Dijirack, a monitoring device capable of detecting environmental variables including temperature, humidity, air quality, and fire.
- Implemented SMS and email notification system for users based on detected conditions.
- I am performing the installation, teaching the usage, and providing technical support for our monitoring application called Dijimon, as well as for the environmental monitoring device we developed, named Dijirack.

Technical Support

2M KURUMSAL INFORMATION TECHNOLOGIES

- I have experience in server setup, including both physical and virtual environments. Additionally, I am proficient in computer installation, ensuring smooth deployment and configuration of systems. Moreover, I excel in providing technical support for hardware, troubleshooting issues, and ensuring optimal performance for users.

Video Editor

Azotech

- I edited and assembled the videos for our educational platform project in Premiere Pro.
